

*Hello, Neighbor!*

## YOUR ATTENDANCE IS NEEDED

The EPA is holding a virtual hearing regarding a new air permit for the proposed Petmin pig iron plant with the following increases in emissions: 56 tons additional NO<sub>x</sub> (nitrogen oxides); over double the amount of SO<sub>2</sub> (sulfur dioxide), Particulate Matter 10 (PM<sub>10</sub>), and greenhouse gases; over five times the amount of Particulate Matter 2.5 (PM<sub>2.5</sub>); and six times the amount of CO (carbon monoxide). Want to hear the EPA explain what this means?
